*[Participants will be divided into small groups.]*
- Each group tries to answer the following discussion points:
1. How can data and AI improve fire and rescue services in your country?  
- Share examples and discuss adaptability in different regions.
  2. What common challenges do countries face in adopting data-driven technologies?  
- Explore how international cooperation can help solve them.
  3. What opportunities exist for cross-border partnerships to advance the use of data in fire and rescue services?  
- Identify potential areas for collaboration.
  4. How can data-driven approaches improve community resilience in different cultural contexts?  
- Share best practices and local insights.
15. 17.00 **Conclusive discussion**  
Each group will have a facilitator to guide the discussion and take notes. Each group will have a spokesperson who will present the key takeaways from their discussions. Notes will be sent to the Secretary who will share with the delegates.
16. 17.15 **FEU Statement (attached) and closing remarks (Stephan)**
